Proposal

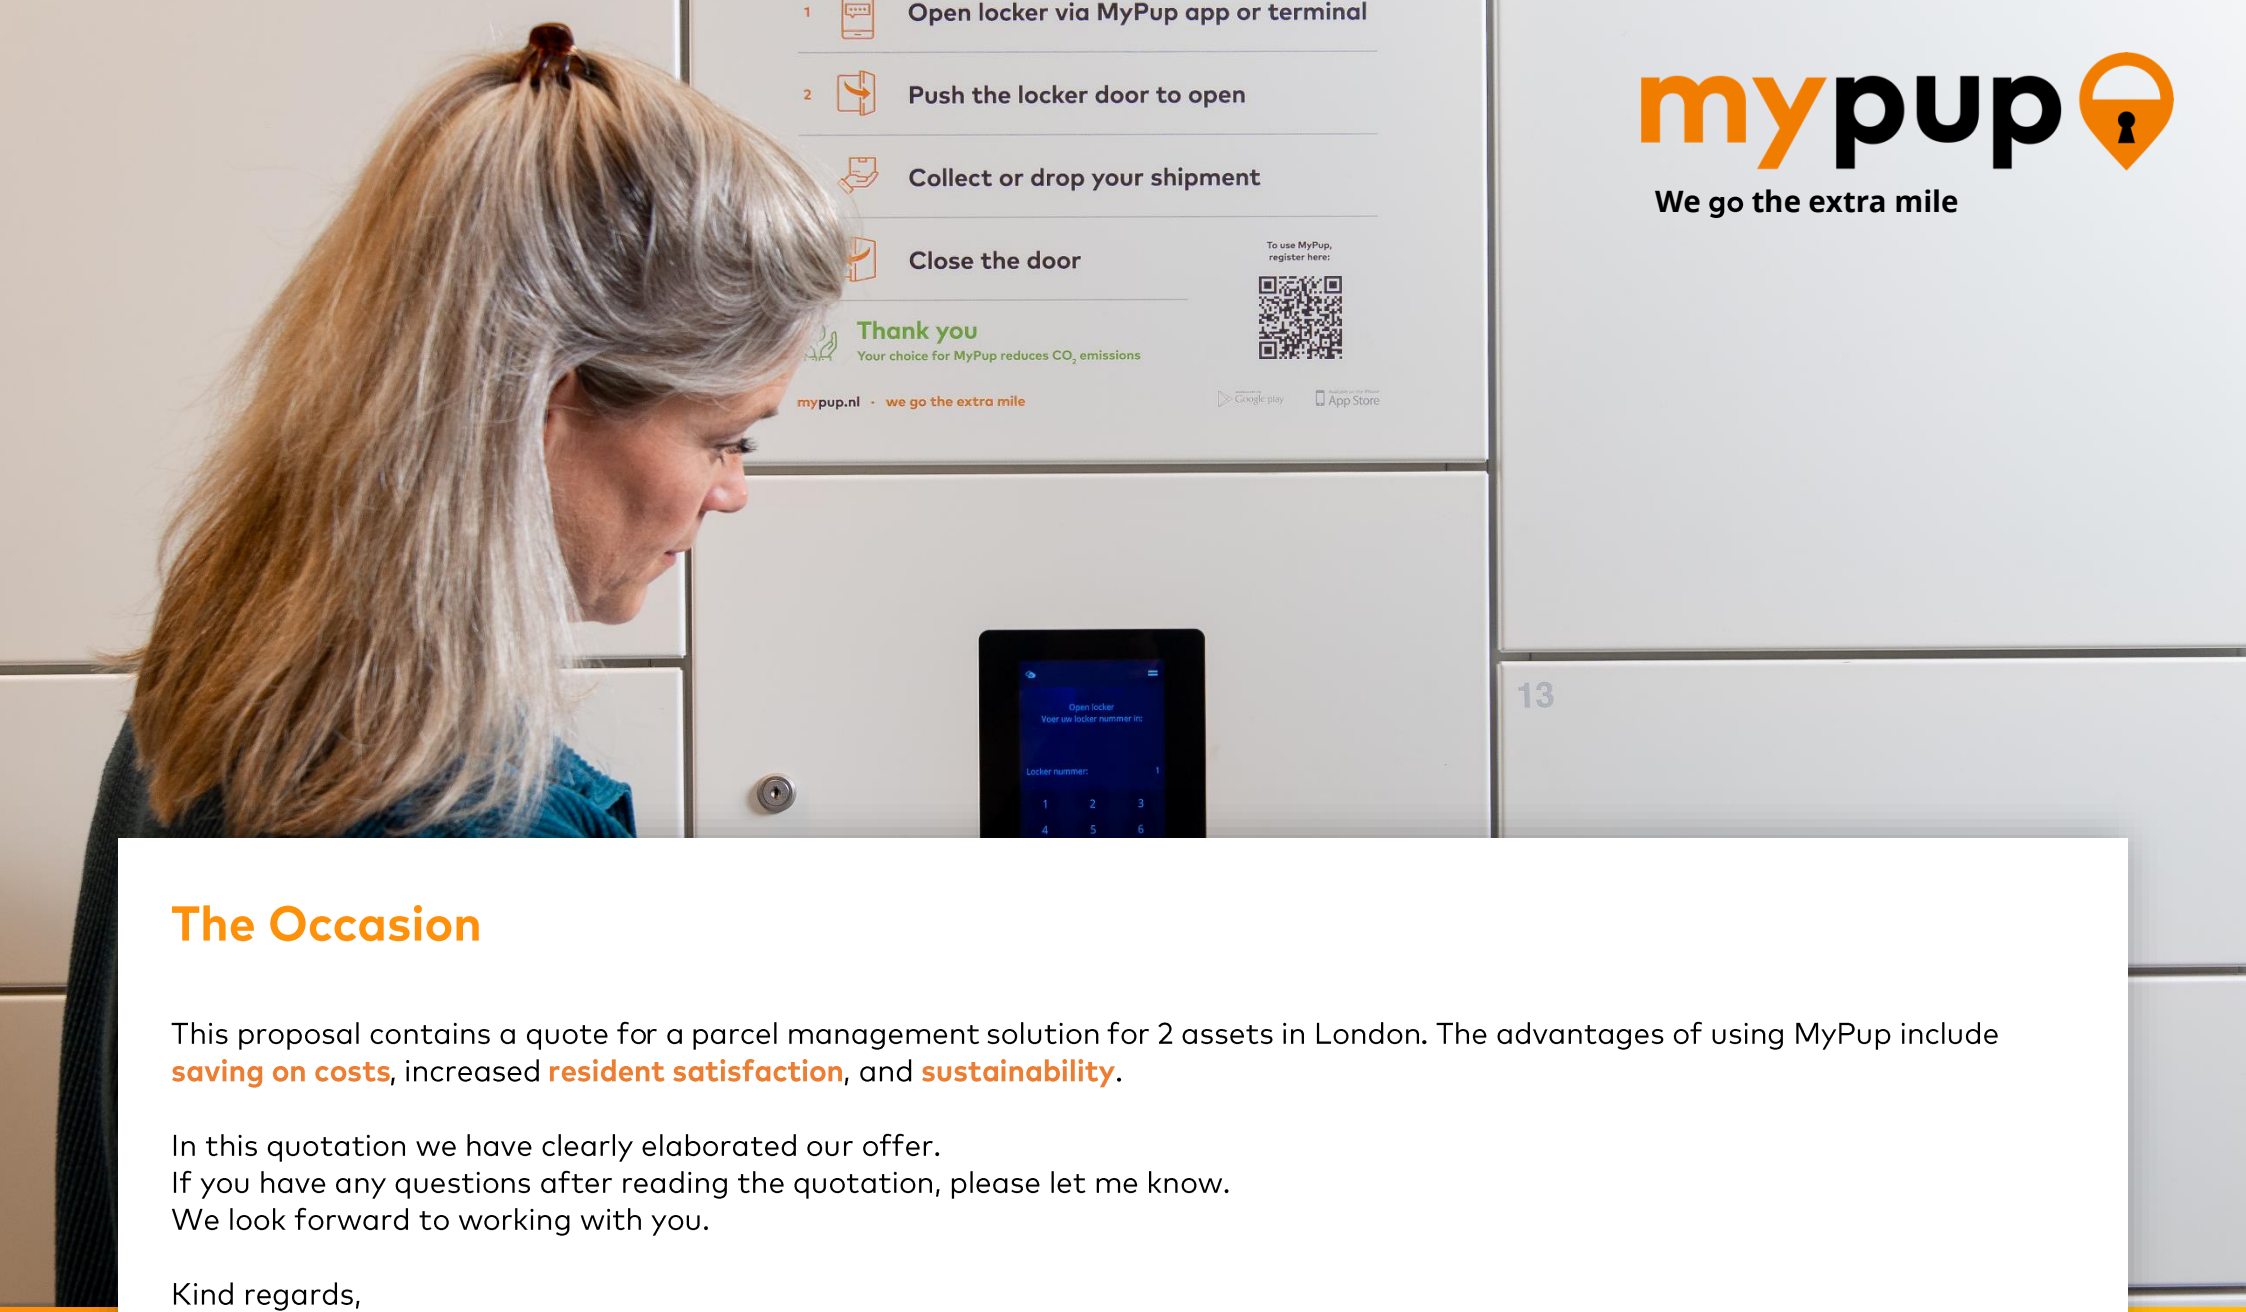

Proposal for Pick Up Point

04-07-24

Drapery Place & Lewisham Exchange - London

Murat Aker (Londonist)

mypup

We go the extra mile

The Occasion

This proposal contains a quote for a parcel management solution for 2 assets in London. The advantages of using MyPup include **saving on costs**, increased **resident satisfaction**, and **sustainability**.

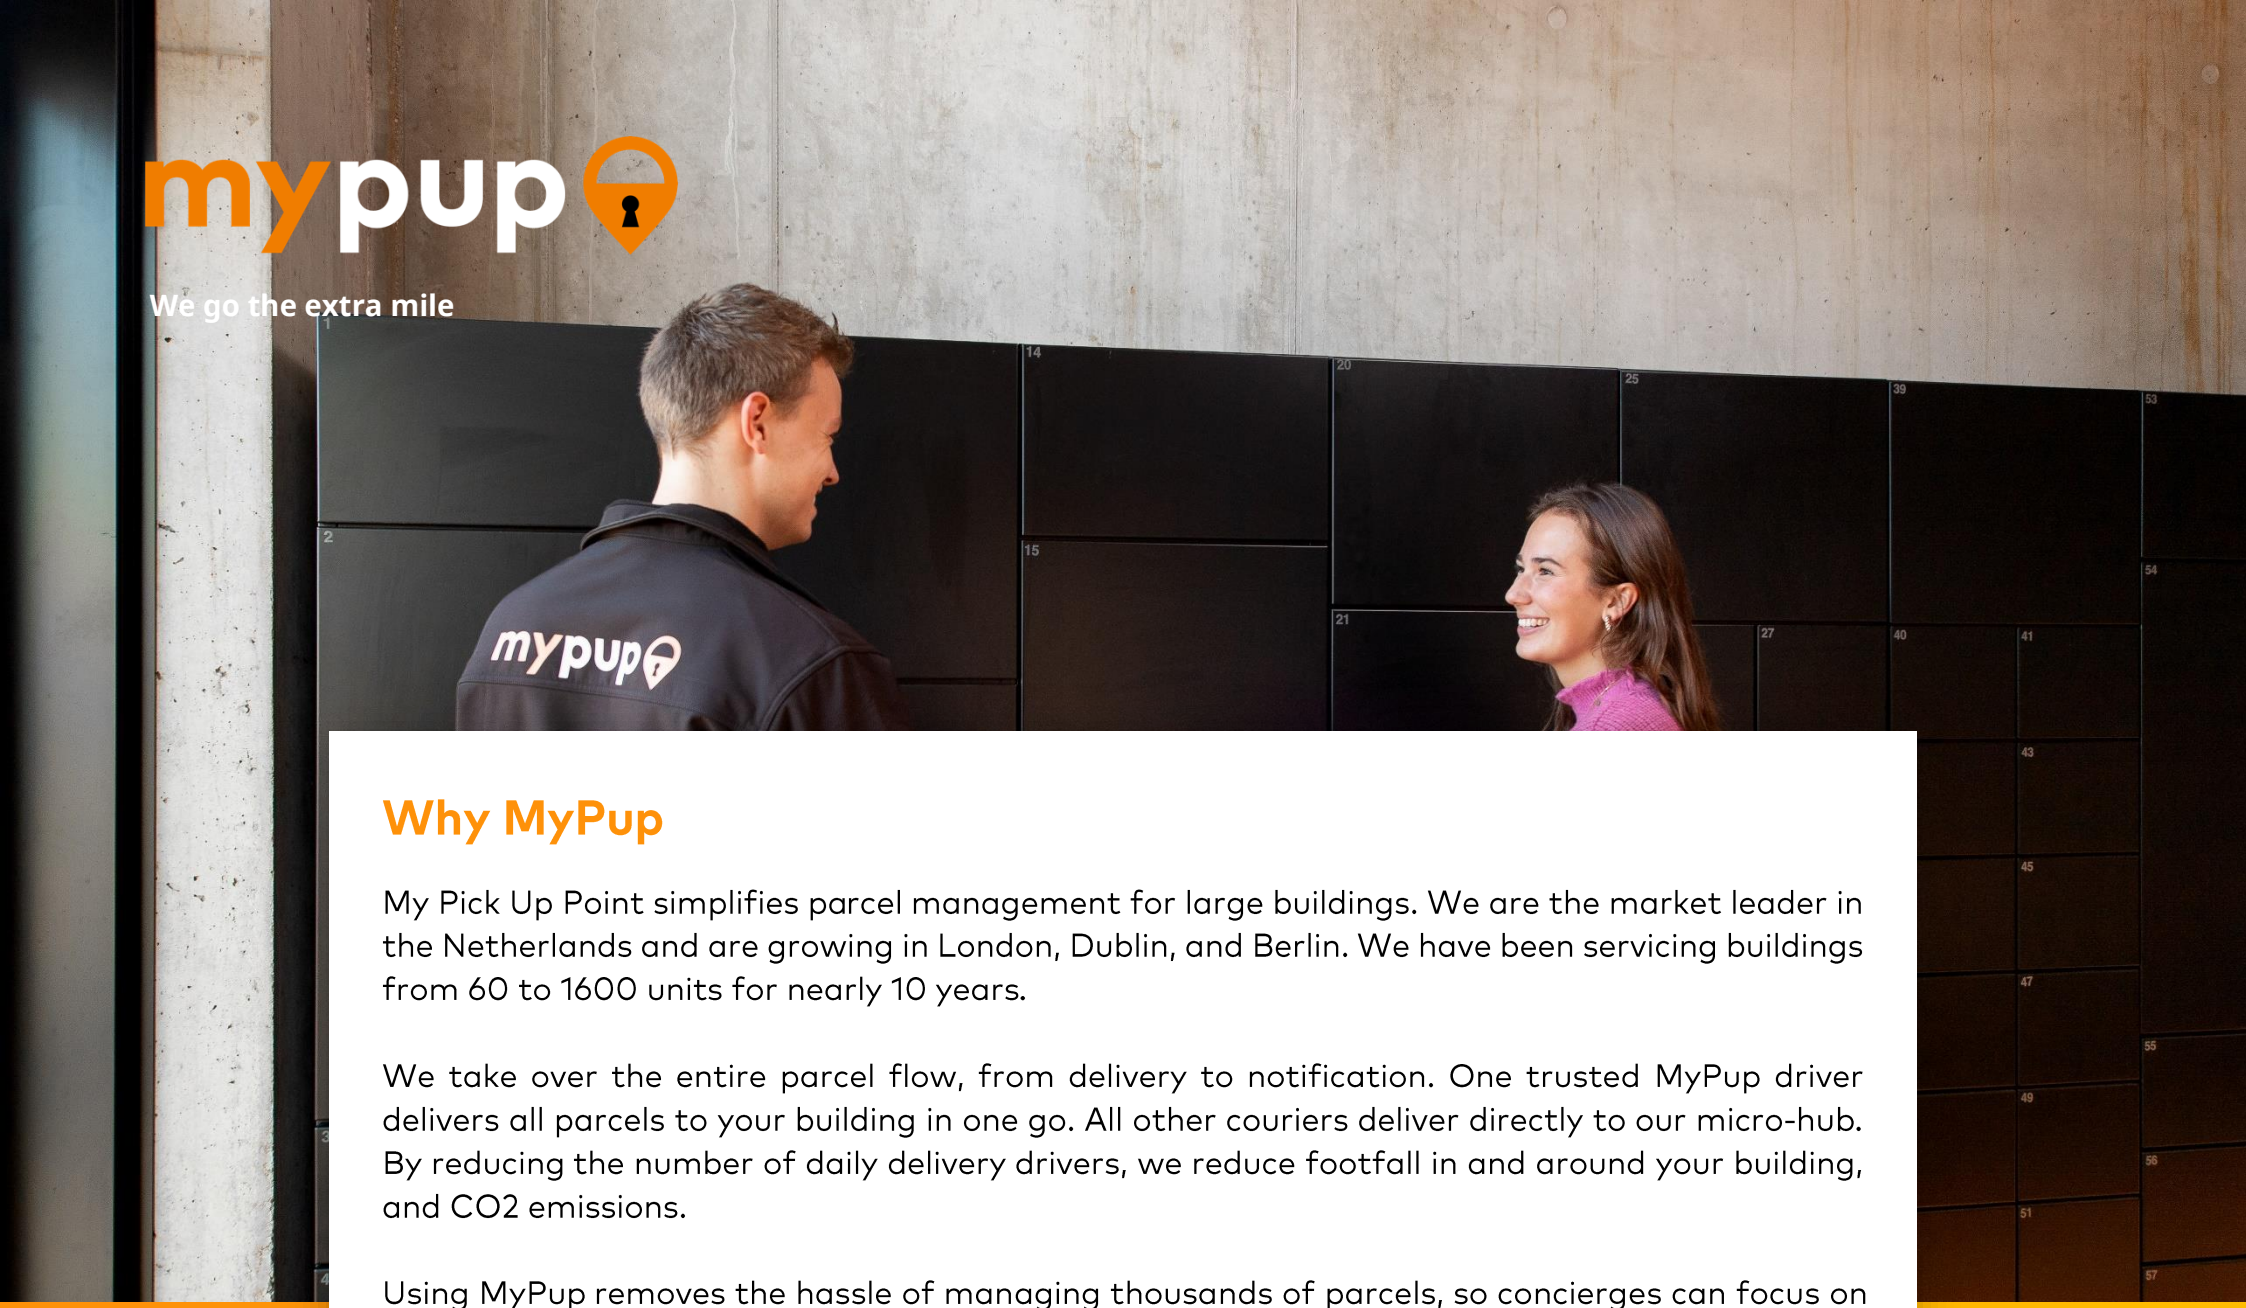

In this quotation we have clearly elaborated our offer.
If you have any questions after reading the quotation, please let me know.
We look forward to working with you.

Kind regards,

James Henderson

We go the extra mile

Why MyPup

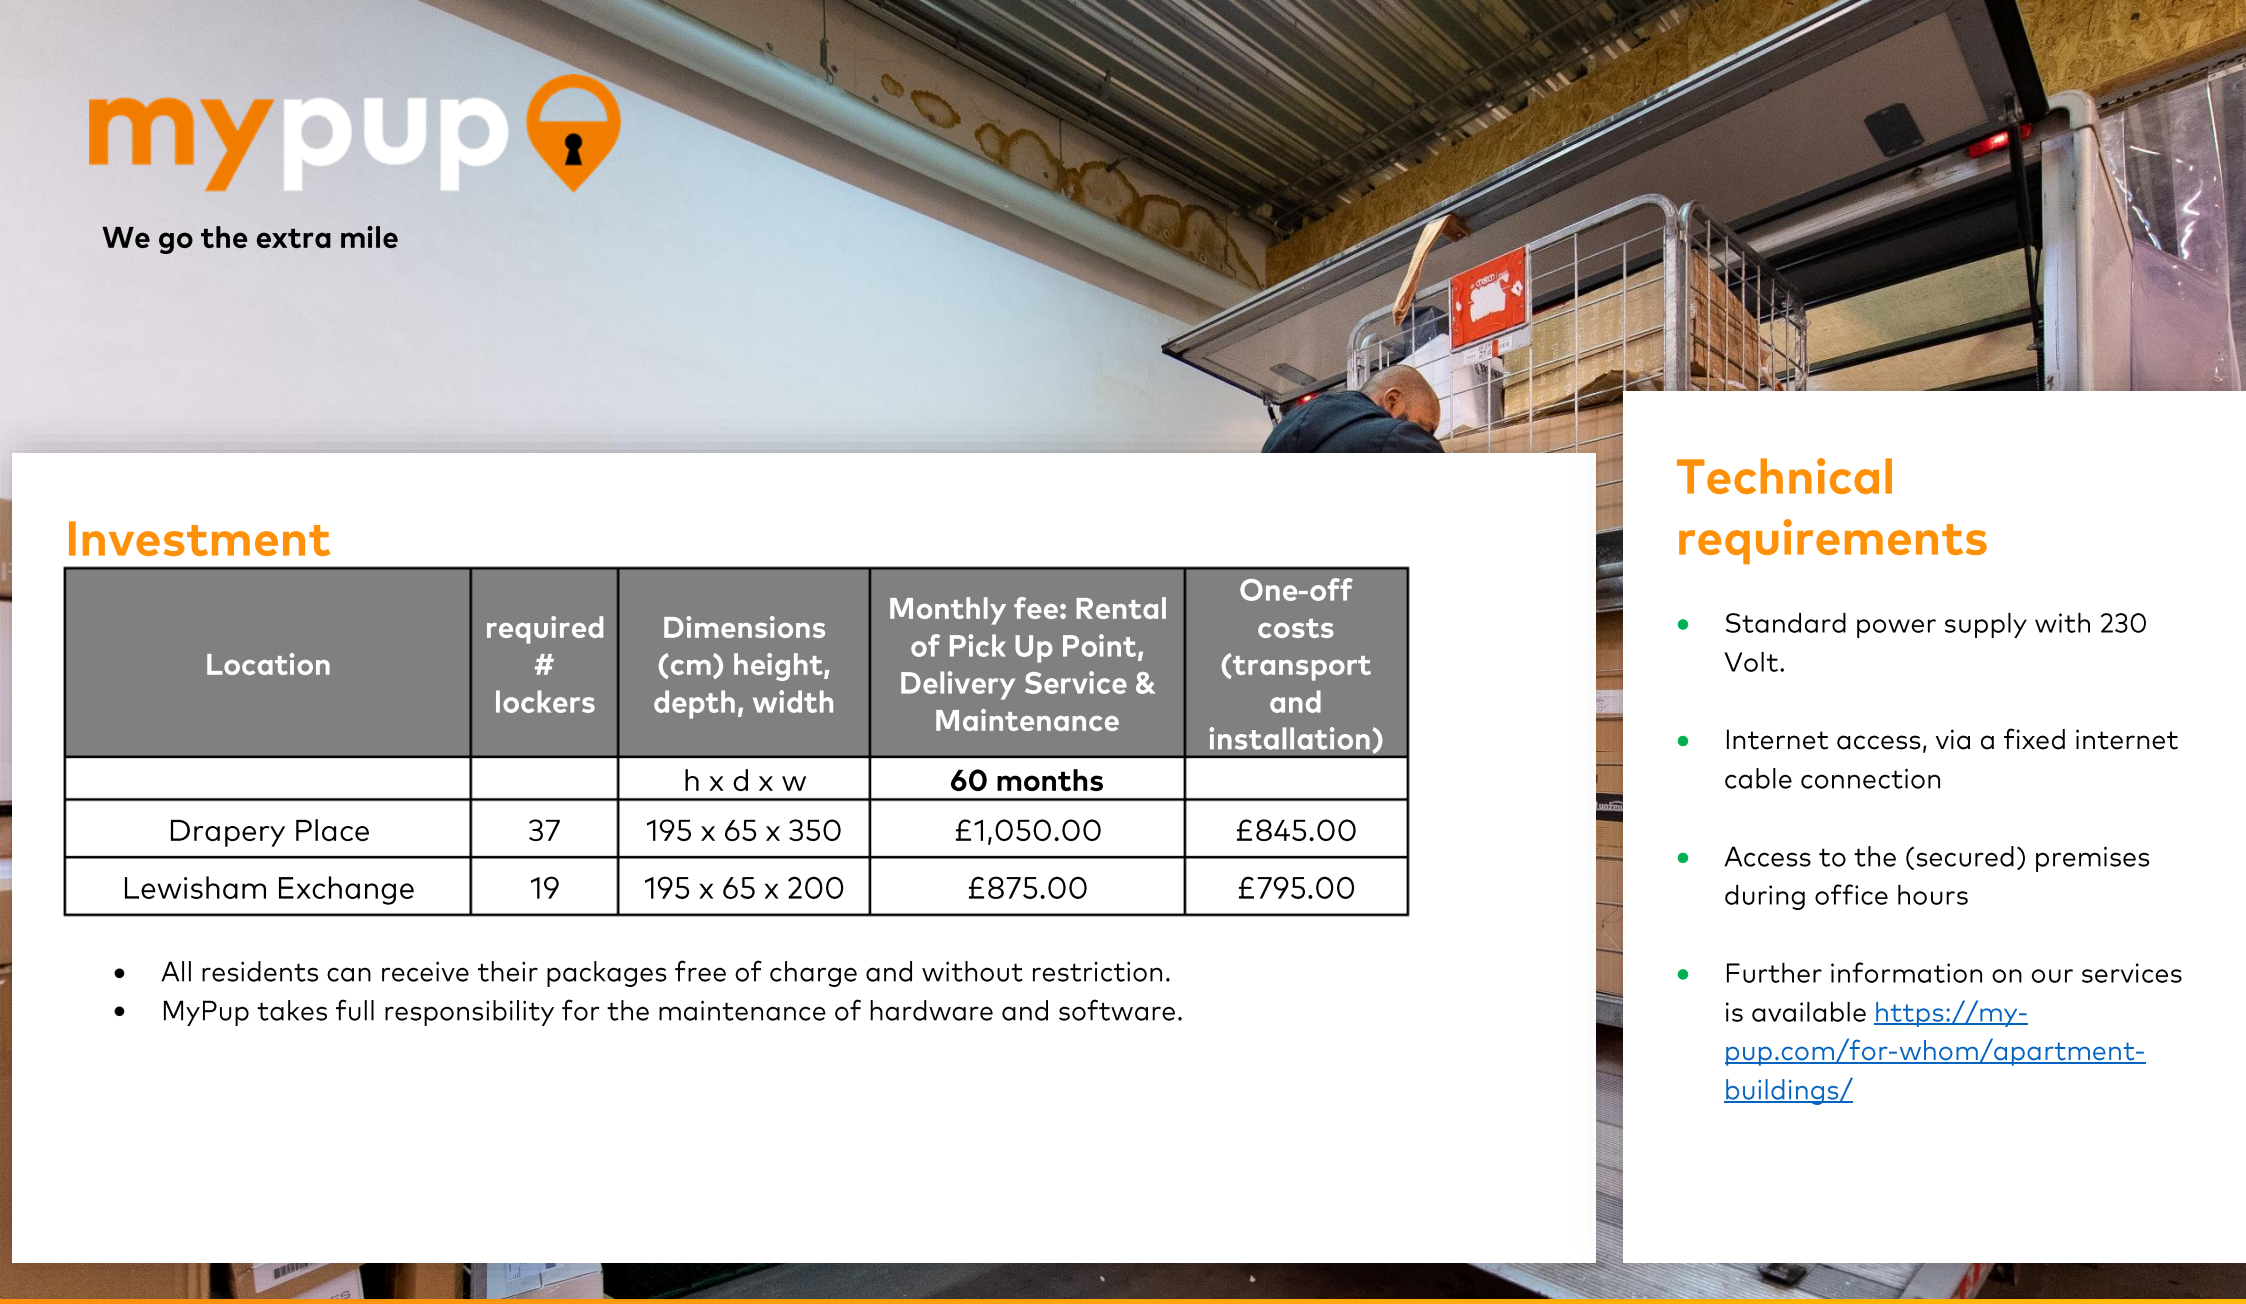

My Pick Up Point simplifies parcel management for large buildings. We are the market leader in the Netherlands and are growing in London, Dublin, and Berlin. We have been servicing buildings from 60 to 1600 units for nearly 10 years.

We take over the entire parcel flow, from delivery to notification. One trusted MyPup driver delivers all parcels to your building in one go. All other couriers deliver directly to our micro-hub. By reducing the number of daily delivery drivers, we reduce footfall in and around your building, and CO2 emissions.

Using MyPup removes the hassle of managing thousands of parcels, so concierges can focus on more important tasks and lobbies are kept clean and safe. By storing all parcels in a secure Pick Up Point, we guarantee they are free from damage and theft. The care and liability for this lies with us. Residents can collect their package at their convenience.

Next steps

After your order, we take the initiative for the implementation.
This process consists of 6 steps:

1. A site visit appointment;
2. We order the lockers and arrange the software;
3. We schedule the routes in our daily operational planning;
4. We schedule an appointment for the installation and commissioning of the Pick Up Point;
5. We jointly inform the residents about the operation and benefits of MyPup;
6. Official start of your MyPup Pick Up Point!

Summary

- Works with every website
- Works with every courier company worldwide
- One trusted delivery person
- Acceptance and prefinancing of parcels with customs charges
- Personal handling of oversized parcels
- Customer service from 8:00 am to 9:00 pm
- Monthly reports on CO2 savings and resident usage.
