Now that Planning Permission has been granted, have you thought about the Building Regulations?

Building Regulations apply to most new buildings and many alterations to existing buildings even if you have planning permission.

If you are proposing an extension, converting a loft, creating a through lounge, building a new home, or something bigger, you will probably need Building Regulation approval.

No matter what size your project, we welcome pre-application enquiries as this can resolve any issues before they become a problem on site.

Our helpful Building Control Team can provide guidance at every stage of the process, offering expert and impartial advice no matter what the size of your project.

Visit our website **www.sevenoaks.gov.uk/buildingcontrol** for further information and application forms, or call our friendly team on **01732 227376**
